

# Synergy Wins Department of Labor Contract with the Office of the Chief Financial Officer

Washington, D.C. - September 12, 2019

The Office of the Chief Financial Officer (OCFO) delivers timely, accurate, and reliable financial information to decision makers in the Department of Labor (DOL) through efficient and effective financial systems and business processes, fosters effective stewardship of public funds, and safeguards fiscal integrity through effective internal controls.

A task order was awarded to Synergy to provide IT Support services to the OCFO, as well as supporting segregation of duties (SOD) for the department's core financial management system (NCFMS), including managing the daily separation and NCFMS period verification, roles and recertification process to meet any audit requirements, providing Travel Management Desk support, and providing Network and System administration support.

Supporting the Department of Labor OCFO has been a great privilege for us. OCFO activities are mission-critical in nature, and they need laser focused attention to details. Our trained staff, our commitment to quality, and our CMMI and ISO compliant processes uniquely qualify us for performing the tasks that are crucial for operations of the DOL.
